

CONSOLIDATE AND REDUCE IT COSTS

[SEPTEMBER 9, 2015](#) [ADMIN](#) [LEAVE A COMMENT](#) [EDIT](#)

With SAP Landscape Transformation 2.0 you can consolidate systems with matching release or across releases. **Analyze systems**

• Repository comparison

• Customizing comparison

Consolidate systems with different releases

• Transfer of a complete client from sender to receiver

• Set up a multient system

• Upgrade on the fly to a higher release

• Perform a Unicode conversion on the fly

Consolidate systems with matching releases

• Transfer of a complete client from sender to receiver

• Set up a multient system

• Perform a Unicode conversion on the fly

Shell creation

• Create system copy with reduced data volume

• Transfer selected clients and their complete data
