

KEY TRENDS AND IMPACTS IN BUSINESS AND TECHNOLOGY

[SEPTEMBER 9, 2015](#) [ADMIN](#) [LEAVE A COMMENT](#) [EDIT](#)

Companies must stay ahead of ever-changing markets and technologies. Emerging demands and evolving business requirements are driving organizations to realign their corporate and IT strategy.

Modernizations and changes are triggered by:

ÿ Adapting to SAP **Innovation**

–Accelerated prototyping of SAP Business Suite powered by SAP HANA

–Smooth and non-disruptive SAP OS/DB migration

–Selective transformation to SAP Business Suite powered by SAP HANA

–Data integration for SAP Business Suite powered by SAP HANA sidecar scenarios and data replication for SAP Business Suite powered by SAP HANA in the Cloud

–Cost-efficient setup of non-productive SAP Business Suite powered by SAP HANA environment and in the cloud solutions from SAP.

ÿ Business and IT **Transformation**

–Mergers & acquisition, divestiture, reorganization

–Implement process and data harmonization

–System consolidation

ÿ Application and IT **Retirement**

–Technological enabler for data migration in the context of system decommissioning
