

SAP HANA CLOUD INTEGRATION

SEPTEMBER 8, 2015 ADMIN LEAVE A COMMENT EDIT

SAP HANA Cloud Integration (SAP HCI) is the strategic service for on-premise to cloud & cloud to cloud integration and runs on top of the SAP HANA Cloud Platform.

- Pre-packaged integration content hub in cloud – “discover, configure, manage”
- Engineered for Cloud: Multi-tenancy, rolling software updates, horizontal scalability, subscription-based usage
- Strong focus on security including data isolation
- Used by SAP Cloud for Customer, Success Factors, Ariba, FSN, and HANA based cloud applications like S&OP
- Complementary offering to SAP Process Integration and SAP Data Services
- Combines process & data integration capabilities
- Open for partners projects, content, connectivity
- Available as SAP HCI Standard Edition, SAP HCI Professional Edition, SAP HCI Application Edition (bundled with SAP cloud apps.), SAP HCI Developer Edition & FSN
- Partner reselling of SAP HCI Application Edition
- Available as SAP HANA AppServices, Premium Edition
